13. [A] The method of [any one of] claim[s] 1 [to 12], wherein said negative

sense RNA virus belongs to the Paramyxoviridae family.

15. A negative-sense RNA viral vector used for transferring nucleic acid into nerve cells by the method of [any one of] claim[s] 1 [to 14].

REMARKS

It is respectfully requested that the Examiner enter these amendments prior to examining the application on its merits.

Respectfully submitted,

SHANKS & HERBERT
